

# Patio Shades

## How to Measure

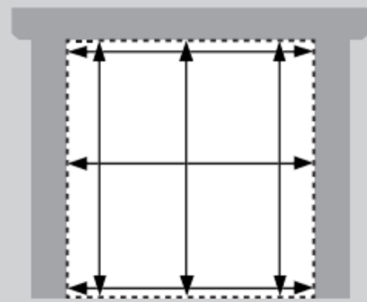

### MEASURING GUIDELINES

1. Measure top, middle, and bottom of opening.

- Shades with Side Track:  
use SMALLEST measurement
- Shades with Cable:  
use TOP measurement

Outside mount

Inside mount

2. Provide a minimum of  $\frac{1}{4}$ " clearance beyond any obstruction(s) to the hem bar such as flashing, bolt head, etc.
3. Overlapping shade fabric onto rough surfaces such as stucco or rock may result in shade wear or fabric panel damage if shade is left down.
